ABSTRACT

An atlas for 113 terrestrial isopods (40 genera, 17 families) reported from North America north of Mexico is presented based on records in the literature. These records indicate that 76 (67.3%) are native to this region. Province and state checklists are generated based on the literature citations for the first records from these provinces and states. A map for each species presents a preliminary, visual summary of its distribution.

INTRODUCTION

Several comprehensive works have been produced in the last century which summarized information about North American terrestrial isopods. Richardson (1905) covered marine, terrestrial, and freshwater species in her still useful Monograph on the Isopods of North America. Van Name (1936) provided a compilation of descriptions and illustrations for all American land and freshwater isopods, followed by two supplements (1940, 1942). Hatch's "Chelifera and Isopoda of Washington and adjacent regions" (1947) included a summary of distribution records for North America. Leistikow and Wagele (1999) reviewed the New World terrestrial species in their recent checklist. In their analysis of the origins of American oniscideans, Jass and Klausmeier (2000) summarized distribution records for the area north of Mexico.

However, North American terrestrial isopods are still poorly known. To facilitate future research, this atlas draws together information about these oniscideans from the recent literature as well as older sources. The sources of illustrations given can assist workers with the identification of collected specimens. Reference to province and state checklists and the preliminary maps of distribution focus on these past records and show where new range information is to be expected.

The atlas consists of four sections. The first is a taxonomic listing of all terrestrial isopod species with records in the literature from North America north of Mexico. The second section is an alphabetical list of species and focuses chiefly on providing sources of diagnostic illustrations in the literature, to assist future workers who may be interested in identifying and more completely documenting the presence of terrestrial isopods in North America. The third section gives species lists for each province and state, with the first citation from the literature documenting the presence there of each species. Finally, Canadian and United States (U.S.) maps present a visual summary of the current records.

These species lists and maps give only a very preliminary picture of actual distributions because of the limited amount of collecting upon which they are based. One of the goals of our publication is to draw attention to gaps in the published records of the past and encourage others to extend known ranges and to fill in or confirm distributional gaps with more intensive and more widespread collecting efforts.

SECTION I: CLASSIFICATION AND SUMMARY

The classification used is that of Holdich et al. (1984). For more taxonomic information including lists of synonyms, see Leistikow and Wagele's (1999) important checklist of New World terrestrial isopods and the World List of Terrestrial Isopods that appears on the Smithsonian Institution's National Museum of Natural History (NMNH) website [<http://www.nmnh.si.edu/iz/isopod/>]. In their Introduction to the February 1, 2001 update of the World List, its compilers emphasize the uncertain state of taxonomy for the entire group of

oniscideans and point out especially the lack of sufficient records from Canada and the contiguous United States. These shortcomings mean that the species listed and the scope of the records for distribution given here should be expected to undergo many changes in the future.

Order ISOPODA, Suborder ONISCIDEA Latreille, 1829 (113)

(107 species, 5 subspecies, 1 variety)

I. Infraorder TYLOMORPHA Vandel, 1943 (5 spp.)

Family TYLIDAE Milne Edwards, 1840 (5 spp.)

Tylos latreillei Audouin, 1826

Tylos marcuzzii Giordani Soika, 1954

Tylos niveus Budde-Lund, 1885

Tylos punctatus Holmes and Gay, 1909

Tylos wegeneri Vandel, 1952

II. Infraorder LIGIAMORPHA Vandel, 1943 (102 spp., 5 ssp., 1 var.)

1. Section DIPLOCHETA Vandel, 1957 (13 spp., 4 ssp., 1 var.)

Family LIGIIDAE Brandt and Ratzeburg, 1831 (13 spp., 4 ssp., 1 var.)

Ligia baudiniana H. Milne Edwards, 1840

Ligia exotica Roux, 1828

Ligia occidentalis Dana, 1853

Ligia oceanica (Linnaeus, 1767)

Ligia pallasii Brandt, 1833

Ligidium blueridgensis Schultz, 1964

Ligidium elrodi (Packard, 1873)

Ligidium elrodi chatoogaensis Schultz, 1970

Ligidium elrodi hancockensis Schultz, 1970

Ligidium elrodi leensis Schultz, 1970

Ligidium elrodi scottensis Schultz, 1970

Ligidium floridanum Schultz and Johnson, 1984

Ligidium gracile (Dana, 1856)

Ligidium gracile var. *flavum* Jackson, 1923

Ligidium kofoidi Maloney, 1930

Ligidium lapetum Mulaik and Mulaik, 1942

Ligidium latum Jackson, 1923

Ligidium mucronatum Mulaik and Mulaik, 1942

2. Section SYNOCHETA Legrand, 1946 (29 spp., 1 ssp.)

i) Superfamily TRICHONISCOIDEA Sars, 1899 (28 spp., 1 ssp.)

Family TRICHONISCIDAE Sars, 1899 (28 spp., 1 ssp.)

Family TRACHELIPODIDAE Strouhal, 1953 (2 spp.)
Nagurus cristatus (Dollfus, 1889)
Trachelipus rathkii (Brandt, 1833)

SECTION II: ALPHABETICAL LIST OF SPECIES, SOURCES OF ILLUSTRATIONS, AND DISTRIBUTION CATEGORY

Each terrestrial isopod known to occur in Canada, Alaska, and the 48 contiguous United States (U.S.) is listed alphabetically with the author and date of the original description and the name of its family.

Publications with diagnostic drawings, photographs, or scanning electron micrographs are cited alphabetically by author. Our attempt was not to produce an exhaustive listing but rather to emphasize the most recent and more accessible sources. Secondary references may be included, especially where access to the original publication may be difficult.

Each species is assigned to a distribution category based on whether the records in the literature indicate it to be an endemic or an assumed immigrant to North America. Approximately one third of the species treated here have not been considered to be native. The extent of the capacity for terrestrial isopods to be transported beyond their native ranges, especially the large number of synanthropic species, is a trait which adds unusual complications to the study of their distributions. Widely distributed species, whether their migration history includes human introduction or any of various other possible transportation means, are categorized as immigrants. This term (rather than "exotic") was chosen to emphasize the significance of this trait for analysis of the North American fauna.

Most endemics are confined to either an eastern or western distribution, and do not have ranges which cross the continent. For isopods with only U.S. records, we describe their distribution on the continent by using the Mississippi River as the demarcation for dividing the country into east and west portions. This demarcation was used for convenience only, since sufficient data are not available to divide the endemics into more zoogeographically informative categories. The native species are mainly seashore or cave dwellers. The seashore species are here designated as East or West Coast endemics. Most cave dwellers have extremely limited distributions, being reported from only one or two caves. The habitat preferences of all species, both endemics and immigrants, were given by Jass and Klausmeier (2000).

The summary of past records in the literature provides a helpful but fairly limited indication of the true ranges of these species. Much work remains to be done on the zoogeography of terrestrial isopods. Mapping the current records may simply serve to illustrate the incompleteness of the published literature. A number of species are known from their type localities only, which especially in some of the older publications may have been so incompletely described as to make them very difficult if not impossible to relocate. However insufficient, these records serve as the basis for planning research which could lead to a more comprehensive view of terrestrial isopod distributions in the future.

Agabiformius latus (Budde-Lund, 1885), Porcellionidae

Published Illustrations: Schultz (1984b) Fig. 2E-G.

Distribution: Immigrant to the U.S.

Agabiformius pusillus (Budde-Lund, 1885), Porcellionidae

Published Illustrations: none found.

Distribution: U.S. West Coast endemic.

Alloniscus mirabilis (Stuxberg, 1875), Scyphacidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 14.

Distribution: U.S. West Coast endemic.

Alloniscus perconvexus Dana, 1856, Scyphacidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 13; Muchmore (1990)

Fig. 24.26; Schultz (1984a) Figs. 1-2; Van Name (1936) Figs. 119-120.

Distribution: Canadian and U.S. West Coast endemic.

Amerigoniscus centralis Vandel, 1978, Trichoniscidae

Published Illustrations: Vandel (1978) Fig. 6.

Distribution: Endemic west of the Mississippi River.

Amerigoniscus curvatus Vandel, 1978, Trichoniscidae

Published Illustrations: Vandel (1978) Fig. 3.

Distribution: Endemic east of the Mississippi River.

Amerigoniscus georgiensis Vandel, 1978, Trichoniscidae

Published Illustrations: Vandel (1978) Fig. 1.

Distribution: Endemic east of the Mississippi River.

Amerigoniscus gipsocolus (Vandel, 1965), Trichoniscidae

Published Illustrations: Vandel (1965) Fig. 10; Vandel (1978) Fig. 7.

Distribution: Endemic west of the Mississippi River.

Amerigoniscus henroti (Vandel, 1950), Trichoniscidae

Published Illustrations: Vandel (1978) Fig. 5.

Distribution: Endemic east of the Mississippi River.

Amerigoniscus malheurensis Schultz, 1982, Trichoniscidae

Published Illustrations: Schultz (1982a) Figs. 1-2.

Distribution: U.S. West Coast endemic.

Amerigoniscus nicholasi (Vandel, 1965), Trichoniscidae

Published Illustrations: Muchmore (1970a) Figs. 1-3 [synonym *Caucasonethes paynei*]; Muchmore (1990) Fig. 24.14; Vandel (1965) Fig. 9; Vandel (1978) Fig. 2.

Distribution: Endemic east of the Mississippi River.

Amerigoniscus proximus Vandel, 1978, Trichoniscidae

Published Illustrations: Vandel (1978) Fig. 4.

Distribution: Endemic east of the Mississippi River.

Amerigoniscus rothi (Vandel, 1953), Trichoniscidae

Published Illustrations: Vandel (1978) Fig. 8.

Distribution: U.S. West Coast endemic.

Androniscus dentiger Verhoeff, 1908, Trichoniscidae

Published Illustrations: Muchmore (1990) Fig. 24.11; Oliver and Meechan (1993)

Fig. 11; Van Name (1940) Fig. 1.

Distribution: Immigrant to Canada and the U.S.

Armadillidium nasatum Budde-Lund, 1885, Armadillidiidae

Published Illustrations: Muchmore (1990) Fig. 24.34; Oliver and Meechan (1993)

Fig. 38; Schultz (1982b) Fig. 30; Van Name (1936) Fig. 160.

Distribution: Immigrant to Canada and the U.S.

Armadillidium vulgare (Latreille, 1804), Armadillidiidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 10.

Distribution: U.S. West Coast endemic.

Armadilloniscus ellipticus (Harger, 1878), Scyphacidae

Published Illustrations: Garthwaite, Lawson, and Taiti (1992) Figs. 1b, "1"[2]a-c, 3a-b;

Muchmore (1990) Fig. 24.16; Schultz (1982b) Fig. 3; Van Name (1936) Fig. 45.

Distribution: Endemic east of the Mississippi River.

Armadilloniscus holmesi Arcangeli, 1933, Scyphacidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 12; Garthwaite, Lawson, and Taiti (1992) Figs. 1c, "1"[2]d-f, 3d.

Distribution: U.S. West Coast endemic.

Armadilloniscus lindahli (Richardson, 1905), Scyphacidae
Published Illustrations: Garthwaite and Lawson (1992) Fig. 11; Van Name (1936) Fig. 47.
Distribution: U.S. West Coast endemic.

Atlantoscia floridana (Van Name, 1940), Philosciidae
Published Illustrations: Johnson (1986) Figs. 1D, 2; Schultz and Johnson (1984) Figs. 4A-S, 5A-F, 7M; Van Name (1940) Fig. 4.
Distribution: Endemic east of the Mississippi River.

Balloniscus brevicornis (Budde-Lund, 1885), Balloniscidae
Published Illustrations: none found.
Distribution: Endemic east of the Mississippi River.

Balloniscus nigricans (Budde-Lund, 1885), Balloniscidae
Published Illustrations: none found.
Distribution: Endemic east of the Mississippi River.

Brackenridgia cavernarum Ulrich, 1902, Trichoniscidae
Published Illustrations: Muchmore (1990) Fig. 24.15; Vandel (1965) Figs. 2-3; Van Name (1936) Fig. 39.
Distribution: Endemic west of the Mississippi River.

Brackenridgia heroldi (Arcangeli, 1932), Trichoniscidae
Published Illustrations: Garthwaite and Lawson (1992) Fig. 6; Van Name (1936) Fig. 314.
Distribution: U.S. West Coast endemic.

Brackenridgia reddelli (Vandel, 1965), Trichoniscidae
Published Illustrations: Vandel (1965) Fig. 7.
Distribution: Endemic west of the Mississippi River.

Brackenridgia sphinxensis Schultz, 1984, Trichoniscidae
Published Illustrations: Schultz (1984b) Fig. 1.
Distribution: Endemic west of the Mississippi River.

Cordioniscus stebbingi (Patience, 1907), Stylo-niscidae
Published Illustrations: Sutton (1972) Fig. 25A; Van Name (1936) Fig. 35.
Distribution: Immigrant to the U.S.

Cubaris murina Brandt, 1833, Armadillidae
Published Illustrations: Van Name (1936) Figs. 235-236.
Distribution: Immigrant to the U.S.

Cylisticus convexus (DeGeer, 1778), Cylisticidae

Published Illustrations: Muchmore (1990) Figs. 24.27, 24.30; Oliver and Meechan (1993) Fig. 41; Schultz (1982b) Figs. 28-29; Van Name (1936) Figs. 147A, 148.

Distribution: Immigrant to Canada and the U.S.

Detonella papillicornis (Richardson, 1904), Scyphacidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 9; Van Name (1936) Fig. 44.

Distribution: Canadian and U.S. West Coast endemic.

Floridoscia fusca Schultz and Johnson, 1984, Philosciidae

Published Illustrations: Johnson (1986) Figs. 1C, 1G-H; Schultz and Johnson (1984) Figs. 6A-R, 7A-L.

Distribution: Endemic east of the Mississippi River.

Halophiloscia couchii (Kinahan, 1858), Halophilosciidae

Published Illustrations: Lemos de Castro (1962) figs. 3-9; Vandel (1960) Figs. 237-238.

Distribution: Immigrant to the U.S.

Haplophthalmus danicus Budde-Lund, 1879, Trichoniscidae

Published Illustrations: Muchmore (1990) Fig. 24.10; Oliver and Meechan (1993) Fig. 19; Schultz (1982b) Fig. 16; Schultz (1984b) Fig. 3A; Van Name (1936) Fig. 37.

Distribution: Immigrant to Canada and the U.S.

Hyloniscus riparius (Koch, 1838), Trichoniscidae

Published Illustrations: Schultz (1982b) Figs. 11-12.

Distribution: Immigrant to Canada and the U.S.

Ligia baudiniana H. Milne Edwards, 1840, Ligiidae

Published Illustrations: Schultz and Johnson (1984) Fig. 1G-H; Van Name (1936) Fig. 14.

Distribution: Endemic reported from both east and west of the Mississippi River.

Ligia exotica Roux, 1828, Ligiidae

Published Illustrations: Schultz (1982b) Figs. 1-2; Schultz and Johnson (1984) Fig. 1K-L; Van Name (1936) Fig. 8.

Distribution: Immigrant to the U.S.

Published Illustrations: Garthwaite and Lawson (1992) Fig. 4; Jackson (1923) Figs. 7-8;

Van Name (1936) Fig. 27.

Distribution: U.S. West Coast endemic.

Ligidium mucronatum Mulaik and Mulaik, 1942, Ligiidae

Published Illustrations: Mulaik and Mulaik (1942) Pl. IV figs. 53-56, Pl. V figs. 57-60;

Van Name (1942) Fig. 2.

Distribution: Endemic west of the Mississippi River.

Littorophiloscia culebrae (Moore, 1901), Philosciidae

Published Illustrations: Johnson (1986) Figs. 1A, 1E; Schultz (1983) Fig. 1A-I; Schultz

and Johnson (1984) Fig. 1M; Taiti and Ferrara (1986) Fig. 8.

Distribution: Endemic east of the Mississippi River.

Littorophiloscia richardsonae (Holmes and Gay, 1909), Philosciidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 7; Taiti and Ferrara (1986)
Figs. 2-3.

Distribution: Canadian and U.S. West Coast endemic.

Littorophiloscia tropicalis Taiti and Ferrara, 1986, Philosciidae

Published Illustrations: Schultz (1983) Fig. 1J-R [synonym *Vandeloscia riedli* Schultz
according to Leistikow and Wagele (1999)]; Taiti and Ferrara (1986) Fig. 9.

Distribution: Endemic east of the Mississippi River.

Littorophiloscia vittata (Say, 1818), Philosciidae

Published Illustrations: Johnson (1986) Figs. 1B, 1F; Schultz (1963a) Figs. 1-22

[synonym *Philoscia robusta*]; Schultz (1982b) Figs. 4-5; Schultz (1983) Figs. 2-3;

Schultz and Johnson (1984) Figs. 1N, 7N; Taiti and Ferrara (1986) Fig. 7.

Distribution: Canadian and U.S. East Coast endemic, reported from both east and west of
the Mississippi River.

Miktoniscus barri Vandel, 1965, Trichoniscidae

Published Illustrations: Vandel (1965) Figs. 15-16.

Distribution: Endemic east of the Mississippi River.

Miktoniscus halophilus Blake, 1931, Trichoniscidae

Published Illustrations: Blake (1931a) Figs. 1i-j, 2; Schultz (1976) Figs. 1-39, 46;

Schultz (1982b) Fig. 15.

Distribution: U.S. East Coast endemic.

Miktoniscus mammothensis Muchmore, 1964, Trichoniscidae

Published Illustrations: Muchmore (1964) Figs. 7-11.

Distribution: Endemic east of the Mississippi River.

Miktoniscus medcofi Van Name, 1940, Trichoniscidae

Published Illustrations: Muchmore (1964) Figs. 1-6, 13; Mulaik and Mulaik (1942) Pl. IV figs. 42-52; Schultz (1976) Figs. 40-45; Schultz (1982b) Fig. 14; Van Name (1940) Fig. 2.

Distribution: Endemic east of the Mississippi River.

Miktoniscus morganensis Schultz, 1976, Trichoniscidae

Published Illustrations: Vandel (1965) Figs. 13A-B, 14A.

Distribution: Endemic east of the Mississippi River.

Miktoniscus oklahomensis Vandel, 1965, Trichoniscidae

Published Illustrations: none found.

Distribution: Endemic west of the Mississippi River.

Miktoniscus racovitzai racovitzai Vandel, 1950, Trichoniscidae

Published Illustrations: Muchmore (1964) Fig. 12; Vandel (1965) Figs. 21-22 [*M. racovitzai oklahomensis* is now the full species *M. oklahomensis*].

Distribution: Endemic reported from east of the Mississippi River.

Nagurus cristatus (Dollfus, 1889), Trachelipodidae

Published Illustrations: Van Name (1936) Fig. 146.

Distribution: Immigrant to the U.S.

Niambia capensis (Dollfus, 1895), Platyarthridae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 8 [synonym: *Mauritaniscus littorinus* (Miller)].

Distribution: Immigrant to the U.S.

Oniscus asellus Linnaeus, 1758, Oniscidae

Published Illustrations: Muchmore (1990) Figs. 24.1, 24.2, 24.20, 24.22, 24.25; Oliver and Meechan (1993) Fig. 26; Schultz (1982b) Figs. 8, 9a-b; Van Name (1936) Figs. 97-98.

Distribution: Immigrant to Canada and the U.S.

Oregoniscus nearcticus (Arcangeli, 1932), Trichoniscidae

Published Illustrations: Van Name (1936) Fig. 313.

Distribution: U.S. West Coast endemic.

Philoscia geiseri Van Name, 1936, Philosciidae

Published Illustrations: Van Name (1936) Fig. 53.

Distribution: Endemic west of the Mississippi River.

Philoscia muscorum (Scopoli, 1763), Philosciidae

Published Illustrations: Muchmore (1990) Fig. 24.24; Oliver and Meechan (1993) Fig. 27; Van Name (1936) Figs. 50-51.

Distribution: Immigrant to Canada and the U.S.

Philoscia spinosa Say, 1818, Philosciidae

Published Illustrations: none found.

Distribution: Endemic east of the Mississippi River.

Platyarthrus aiasensis Legrand, 1954, Platyarthridae

Published Illustrations: Vandel (1960) Fig. 227D.

Distribution: Immigrant to the U.S.

Platyarthrus hoffmannseggi Brandt, 1833, Platyarthridae

Published Illustrations: Oliver and Meechan (1993) Fig. 28; Van Name (1940) Fig. 8.

Distribution: Immigrant to the U.S.

Porcellio alpinus Mulaik and Mulaik, 1943, Porcellionidae

Published Illustrations: Mulaik and Mulaik (1943) Pl. II figs. 13-20.

Distribution: Endemic west of the Mississippi River.

Porcellio conchus Mulaik and Mulaik, 1943, Porcellionidae

Published Illustrations: Mulaik and Mulaik (1943) Pl. I figs. 1-5.

Distribution: Endemic west of the Mississippi River.

Porcellio dilatatus Brandt and Ratzeburg, 1833, Porcellionidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 16; Oliver and Meechan (1993) Fig. 45; Schultz (1984b) Fig. 3K-N; Van Name (1940) Fig. 10.

Distribution: Immigrant to Canada and the U.S.

Porcellio grandeus Mulaik and Mulaik, 1943, Porcellionidae

Published Illustrations: Mulaik and Mulaik (1943) Pl. I figs. 6-12.

Distribution: Endemic west of the Mississippi River.

Porcellio laevis Latreille, 1804, Porcellionidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 17; Oliver and Meechan (1993) Fig. 46; Schultz (1982b) Figs. 24-25; Schultz (1984b) Fig. 3H-J; Van Name (1936) Fig. 129; Van Name (1940) Fig. 27.

Distribution: Immigrant to Canada and the U.S.

Porcellio ragusae (Dollfus, 1896), Porcellionidae

Published Illustrations: Van Name (1940) Figs. 11-12.

Distribution: Endemic west of the Mississippi River.

Porcellio scaber Latreille, 1804, Porcellionidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 15; Oliver and Meechan

(1993) Fig. 47; Schultz (1982b) Figs. 21-23; Van Name (1936) Figs. 127A, 128; Van Name (1940) Fig. 28.

Distribution: Immigrant to Canada and the U.S.

Porcellio spinicornis Say, 1818, Porcellionidae

Published Illustrations: Oliver and Meechan (1993) Fig. 47; Van Name (1936) Fig. 130; Van Name (1940) Figs. 9, 29.

Distribution: Immigrant to Canada and the U.S.

Porcellionides floridana Garthwaite and Sassaman, 1985, Porcellionidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 18; Garthwaite and Sasaman (1985) Figs. 1A-C, 2.

Distribution: Immigrant to the U.S.

Porcellionides pruinosus (Brandt, 1833), Porcellionidae

Published Illustrations: Garthwaite and Sassaman (1985) Figs. 1D-F, 2; Muchmore (1990) Fig. 24.31; Oliver and Meechan (1993) Figs. 44E-G, 50; Schultz (1982b) Fig. 6; Schultz (1984b) Fig. 3E-G; Van Name (1936) Figs. 127B, 133-134.

Distribution: Immigrant to Canada and the U.S.

Porcellionides virgatus (Budde-Lund, 1885), Porcellionidae

Published Illustrations: Schultz (1982b) Figs. 26-27; Van Name (1936) Fig. 135; Van Name (1940) Fig. 30A.

Distribution: Endemic reported from both east and west of the Mississippi River.

Proporcellio quadriseriatus (Verhoeff, 1917), Porcellionidae

Published Illustrations: Van Name (1936) Fig. 132.

Distribution: Immigrant to the U.S.

Rhyscotus texensis (Richardson, 1905), Rhyscotidae

Published Illustrations: Muchmore (1990) Fig. 24.29; Schultz and Johnson (1984) Figs. 8A-P, 9A-I; Van Name (1936) Figs. 150i, 150q, 156.

Distribution: Endemic reported from both east and west of the Mississippi River.

Scyphacella arenicola Smith, 1873, Scyphacidae

Published Illustrations: Muchmore (1990) Fig. 24.17; Van Name (1936) Fig. 41.

Distribution: U.S. East Coast endemic.

Stenoniscus pleonalis Aubert and Dollfus, 1890, Stenoniscidae

Published Illustrations: Vandel (1960) Figs. 207-210.

Distribution: Immigrant to the U.S.

Trachelipus rathkii (Brandt, 1833), Trachelipodidae

Published Illustrations: Muchmore (1990) Fig. 24.32; Oliver and Meechan (1993) Fig. 52; Van Name (1936) Figs. 147B, 149; Van Name (1940) Fig. 31.

Distribution: Immigrant to Canada and the U.S.

Trichoniscoides sarsi Patience, 1908, Trichoniscidae
Published Illustrations: Muchmore (1990) Fig. 24.12.
Distribution: Immigrant to Canadian East Coast.

Trichoniscus orchidicola Mulaik, 1960, Trichoniscidae
Published Illustrations: Mulaik (1960) Pl. V figs. 74-79.
Distribution: Immigrant to the U.S.

Trichoniscus pusillus Brandt, 1833, Trichoniscidae
Published Illustrations: Blake (1931) Fig. 1a-h; Muchmore (1990) Figs. 24.6, 24.8;
Oliver and Meechan (1993) Figs. 10D-E, 16; Schultz (1982b) Fig. 10.
Distribution: Immigrant to Canada and the U.S.

Trichoniscus pusillus ssp. *provisorius* Racovitzta, 1908, Trichoniscidae
Published Illustrations: Palmen (1951) Figs. 5-6.
Distribution: Immigrant to Canadian and U.S. East Coast.

Trichoniscus pygmaeus Sars, 1899, Trichoniscidae
Published Illustrations: Oliver and Meechan (1993) Figs. 10C, 17; Van Name (1936)
Fig. 30.
Distribution: Immigrant to Canada and the U.S.

Trichorhina donaldsoni Schultz, 1963, Platyarthridae
Published Illustrations: Schultz (1963c) Figs. 1-22.
Distribution: Endemic east of the Mississippi River.

Trichorhina heterophtalma Lemos de Castro, 1964, Platyarthridae
Published Illustrations: Lemos de Castro (1964) Figs. 1-2.
Distribution: Endemic east of the Mississippi River.

Trichorhina tomentosa Budde-Lund, 1893, Platyarthridae
Published Illustrations: Van Name (1936) Fig. 103.
Distribution: Immigrant to the U.S.

Trichorhina triocis Mulaik and Mulaik, 1943, Platyarthridae
Published Illustrations: Muchmore (1990) Fig. 24.18; Mulaik and Mulaik (1943) Pl. III
figs. 28-36.
Distribution: Endemic west of the Mississippi River.

Tylös latreillei Audouin, 1826, Tylidae
Published Illustrations: Schultz and Johnson (1984) Fig. 1A-B; Van Name (1936)
Figs. 249-250.
Distribution: Immigrant to the U.S.

Tylos marcuzzii Giordani Soika, 1954, Tylidae

Published Illustrations: Schultz and Johnson (1984) Fig. 1E-F.

Distribution: Immigrant to the U.S.

Tylos niveus Budde-Lund, 1885, Tylidae

Published Illustrations: Schultz and Johnson (1984) Fig. 1C-D; Van Name (1936)

Fig. 256.

Distribution: Endemic east of the Mississippi River.

Tylos punctatus Holmes and Gay, 1909, Tylidae

Published Illustrations: Van Name (1936) Figs. 251-253.

Distribution: U.S. West Coast endemic.

Tylos wegeneri Vandel, 1952, Tylidae

Published Illustrations: none found.

Distribution: Immigrant to the U.S.

Venezillo apacheus (Mulaik and Mulaik, 1942), Armadillidae

Published Illustrations: Mulaik and Mulaik (1942) Pl. I; Van Name (1942) Fig. 17.

Distribution: Endemic west of the Mississippi River.

Venezillo arizonicus (Mulaik and Mulaik, 1942), Armadillidae

Published Illustrations: Mulaik and Mulaik (1942) Pl. II figs. 22-28, Pl. III figs. 29-30;

Schultz (1984b) Figs. 4-5; Van Name (1942) Fig. 18.

Distribution: Endemic west of the Mississippi River.

Venezillo californicus (Budde-Lund, 1885), Armadillidae

Published Illustrations: none found.

Distribution: U.S. West Coast endemic.

Venezillo chamberlini (Mulaik and Mulaik, 1942), Armadillidae

Published Illustrations: Mulaik and Mulaik (1942) Pl. II figs. 15-21; Van Name (1942)

Fig. 19.

Distribution: Endemic west of the Mississippi River.

Venezillo microphthalmus (Arcangeli, 1932), Armadillidae

Published Illustrations: Garthwaite and Lawson (1992) Fig. 20; Van Name (1936)

Fig. 315.

Distribution: U.S. West Coast endemic.

Venezillo parvus (Budde-Lund, 1885), Armadillidae

Published Illustrations: Schultz (1975) Fig. 7.

Distribution: Immigrant to the U.S.

Venezillo pisum (Budde-Lund, 1885), Armadillidae

Published Illustrations: none found.

Distribution: Endemic east of the Mississippi River.

Venezillo tanneri (Mulaik and Mulaik, 1942), Armadillidae

Published Illustrations: Mulaik and Mulaik (1942) Pl. III figs. 31-39; Van Name (1942)

Fig. 20.

Distribution: Endemic west of the Mississippi River.

SECTION III: PROVINCE AND STATE SPECIES LISTS

Under First Published Record, this section updates the first records from the literature for each geographic unit, from our initial such compilation (Jass and Klausmeier, 2000). Canadian provinces and then U.S. states are listed alphabetically as they would be by name, followed by their postal code abbreviations which are used to designate each on Maps 1 and 2. The number for total species is given in parentheses.

Canadian Province

ALBERTA, AB (0)

BRITISH COLUMBIA, BC (14)

Alloniscus perconvexus

Armadillidium nasatum

Armadillidium vulgare

Cylisticus convexus

Detonella papillicornis

Ligia pallasi

Ligidium gracile

Ligidium gracile var. *flavum*

Littorophiloscia richardsonae

Oniscus asellus

Porcellio dilatatus

Porcellio scaber

Porcellionides pruinosus

Trachelipus rathkii

MANITOBA, MB (0)

NEW BRUNSWICK, NB (4)

Cylisticus convexus

Porcellio scaber

Trachelipus rathkii

Trichoniscus pusillus

NEWFOUNDLAND, NF (12)

Androniscus dentiger

Cylisticus convexus

Haplophthalmus danicus

Hyloniscus riparius

Oniscus asellus

Porcellio dilatatus

Porcellio scaber

Trachelipus rathkii

SECTION IV: MAPS

Maps giving the published records follow the Literature Cited section. Introductory Maps 1 and 2 identify the Canadian provinces and U.S. states by their postal code abbreviations. The species distribution maps follow, with cross-hatching marking the provinces and states from which each terrestrial isopod has been recorded. In a few cases, solid black was used to mark records that would otherwise be difficult to see. First, maps for those species which include Canada in their ranges are given, with one species per page. Following these, maps for species with no Canadian records are presented, with two species per page.

The purpose of the maps is to present preliminary visual summaries of these species distributions. The province and state records show the patchiness of terrestrial isopod occurrences as they have been reported. The current picture is unfortunately one based on scanty collecting. A more realistic plotting of their actual distributions awaits a future when the presence of terrestrial isopods in this region has been documented in greater detail than it is at present.

The 26 isopods with Canadian records are: *Alloniscus perconvexus*, *Androniscus dentiger*, *Armadillidium nasatum*, *A. vulgare*, *Cylisticus convexus*, *Detonella papillicornis*, *Haplophthalmus danicus*, *Hyloniscus riparius*, *Ligia pallasii*, *Ligidium elrodii*, *L. gracile*, *L. gracile* var. *flavum*, *Littorophiloscia richardsonae*, *L. vittata*, *Oniscus asellus*, *Philoscia muscorum*, *Porcellio dilatatus*, *P. laevis*, *P. scaber*, *P. spinicornis*, *Porcellionides pruinosus*, *Trachelipus rathkii*, *Trichonisoides sarsi*, *Trichoniscus pusillus*, *T. p. ssp. provisorius*, and *T. pygmaeus*.

ACKNOWLEDGEMENTS

We are grateful for the support of the Milwaukee Public Museum's staff, especially Judith Turner and Ruth King for assistance in the Library and publications editor Paul Mayer. We gratefully acknowledge the enormously useful resource "The World List of Marine, Freshwater and Terrestrial Isopod Crustaceans" provided through the Smithsonian Institution's National Museum of Natural History, and the helpful advice received from Marilyn Schotte, Invertebrate Zoology, NMNH Department of Systematic Biology.

Reviewers for this paper were J. J. Lewis and M. J. Schotte.

ADDED NOTE: When Garthwaite and Sassaman (1985) described *Porcellionides floria* as a new species from California, they also included a North American map showing the distribution of their samples of *P.floria* and the closely related *P.pruinosus*. Those possible added states for *P.floria* distribution are not given in our state species lists but are in the following map.

Map 1. Canadian abbreviations

Map 2. U.S. abbreviations

Alloniscus perconvexus

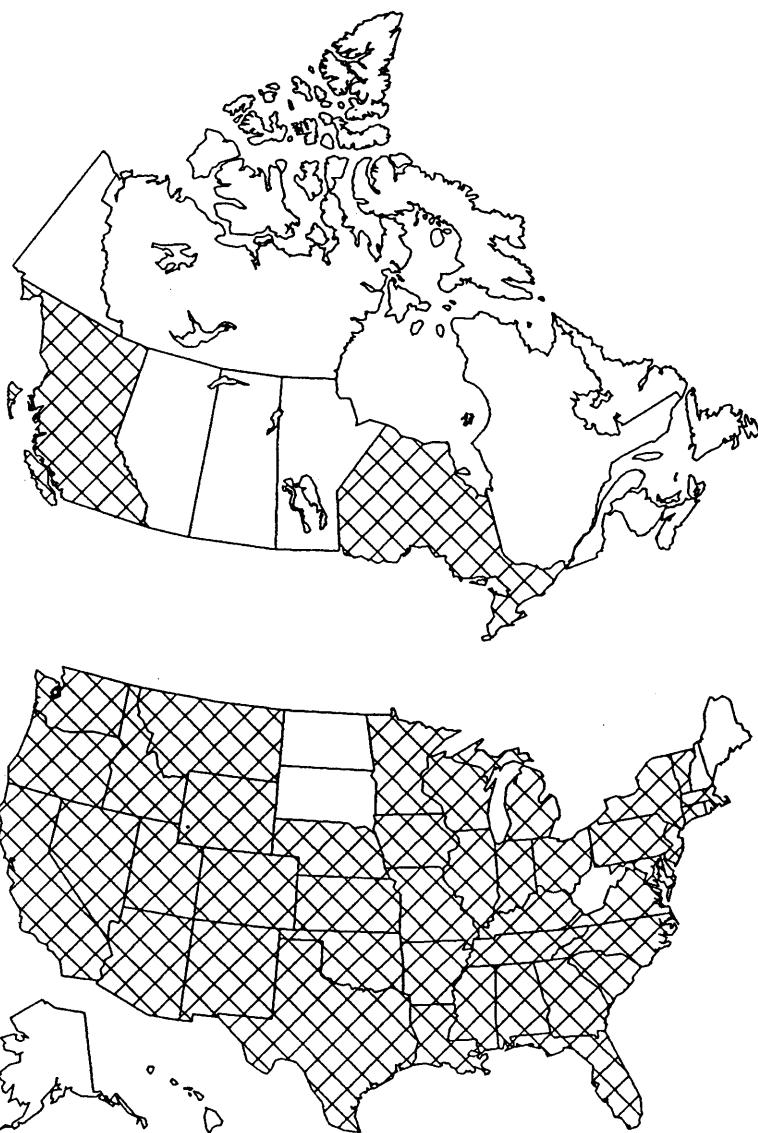

Androniscus dentiger

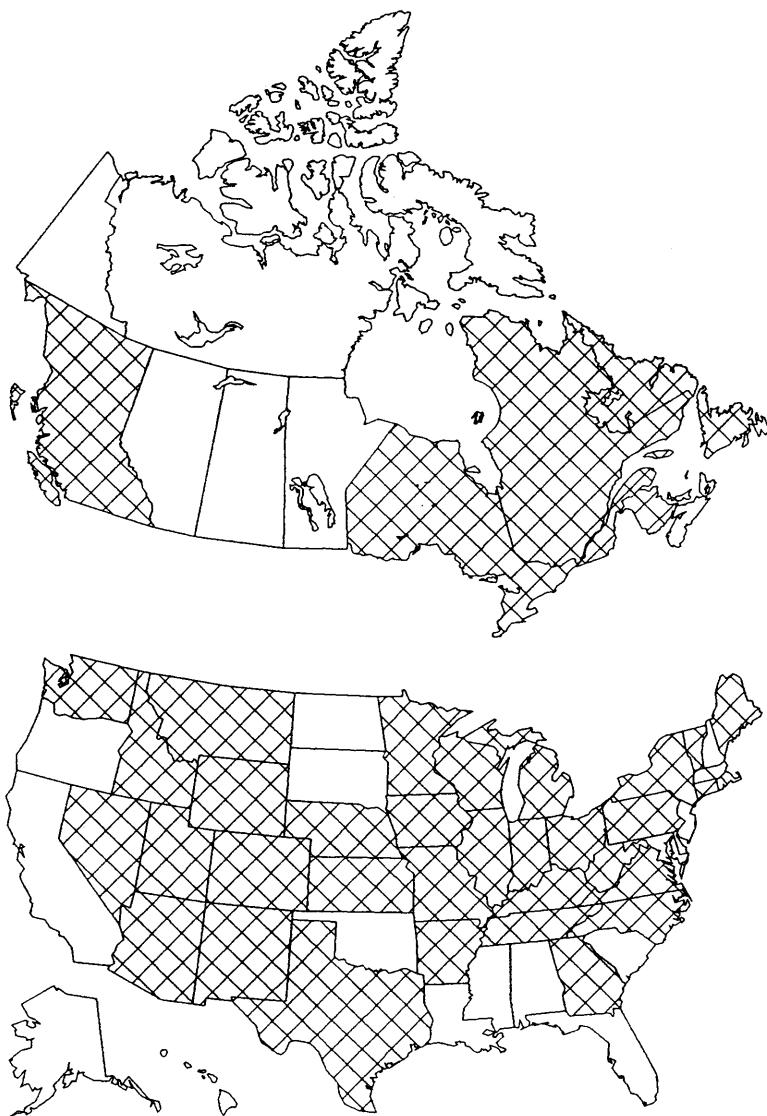

Armadillidium nasatum

Armadillidium vulgare

Cylisticus convexus

Detonella papillicornis

Haplophthalmus danicus

Hyloniscus riparius

Ligia pallasii

Ligidium elrodii

Ligidium gracile

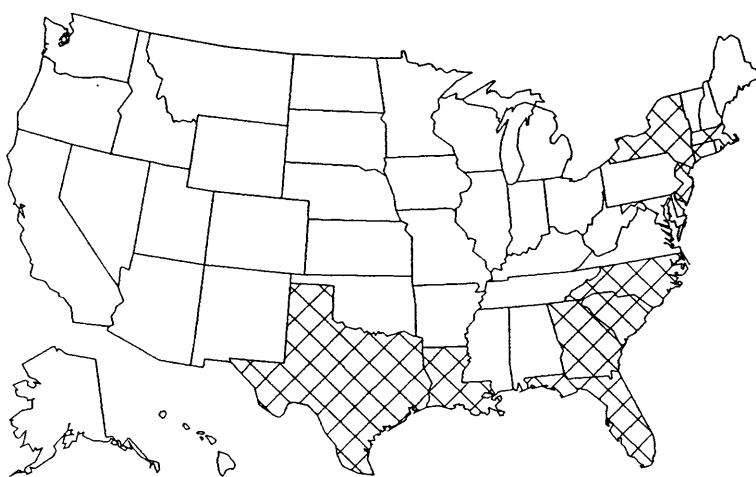

Ligidium gracile var. *flavum*

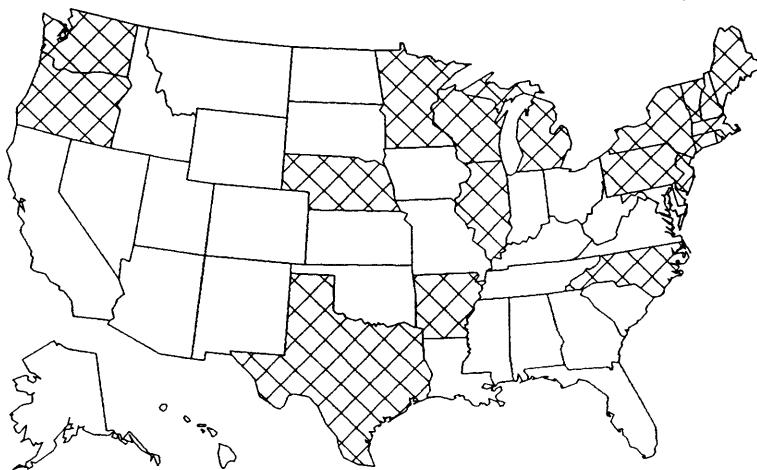

Littorophiloscia richardsonae

Littorophiloscia vittata

Oniscus asellus

Philoscia muscorum

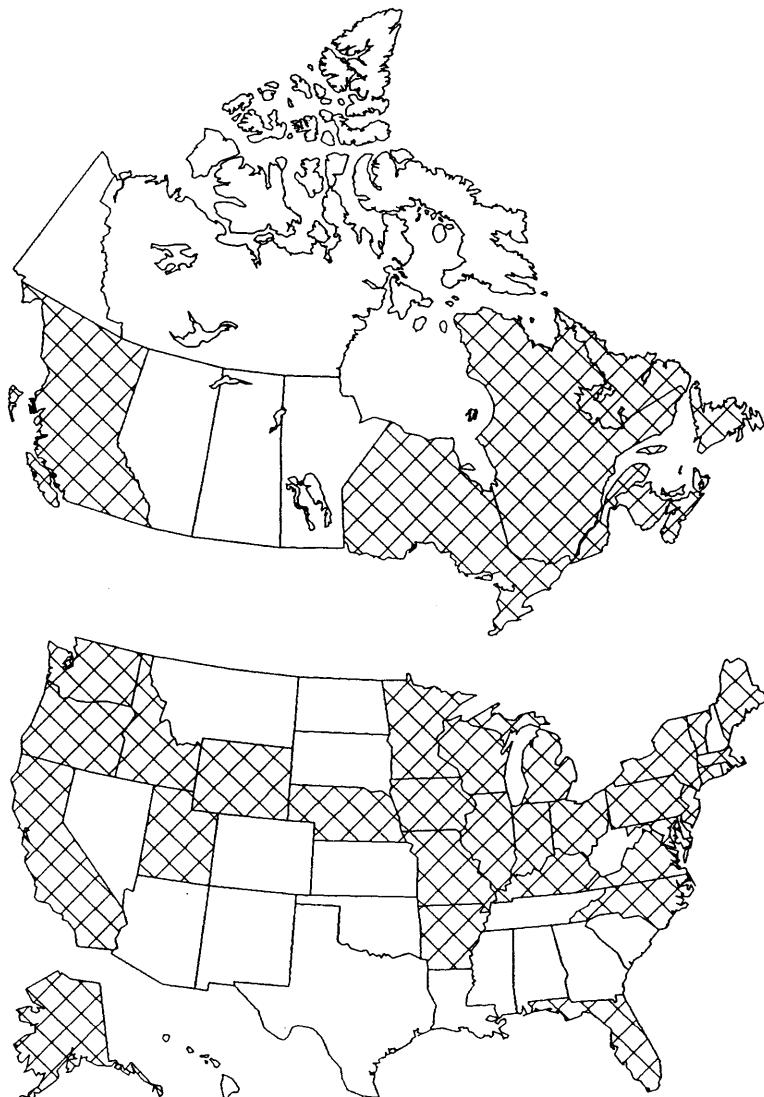

Porcellio dilatatus

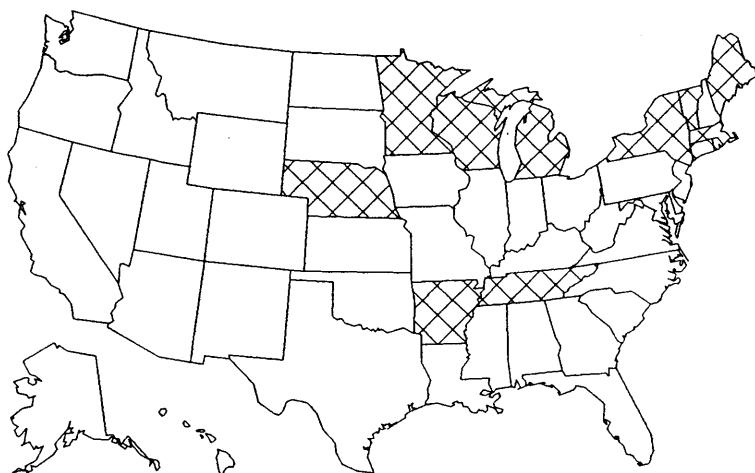

Porcellio laevis

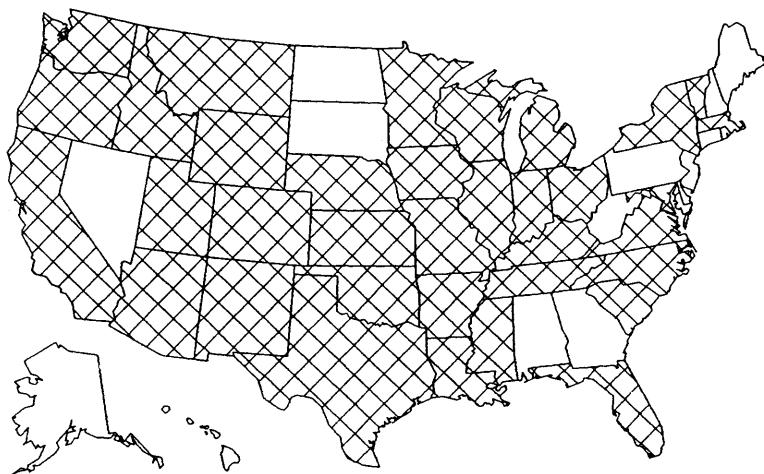

Porcellio scaber

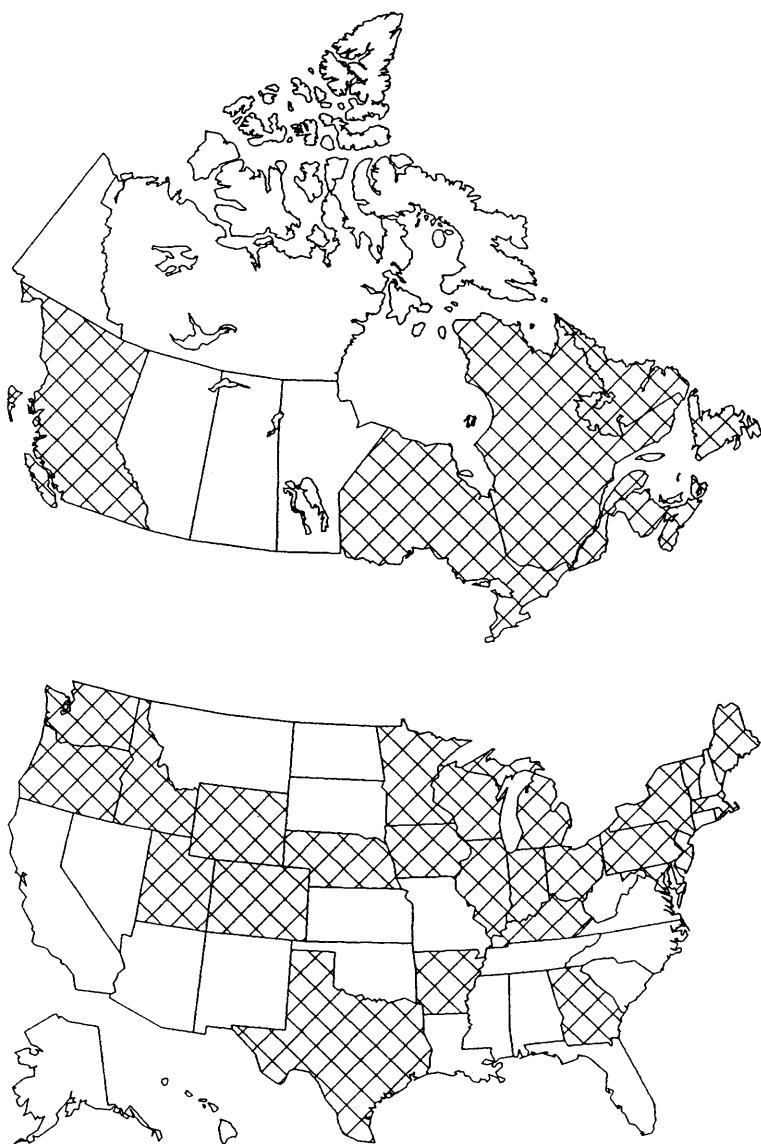

Porcellio spinicornis

Porcellionides pruinosus

Trachelipus rathkii

Trichoniscoides sarsi

Trichoniscus pusillus

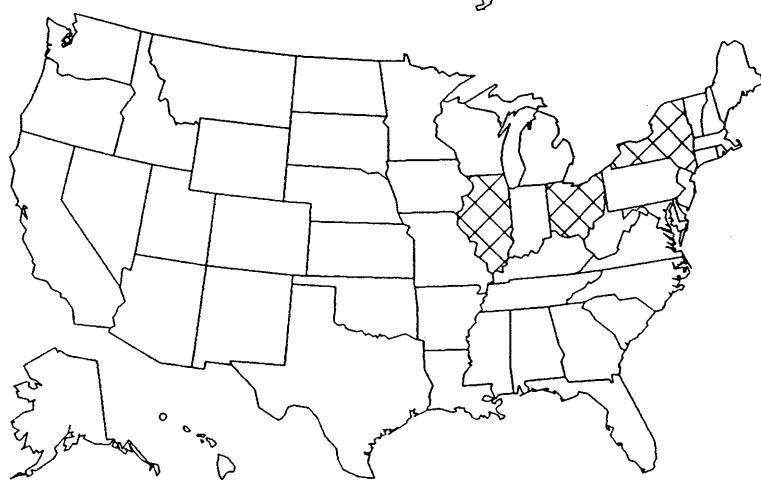

Trichoniscus pusillus

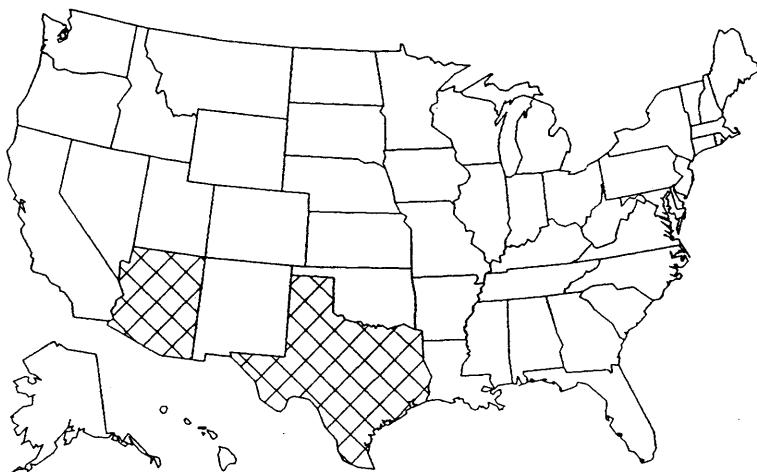

ssp. *provisorius*

Trichoniscus pygmaeus

Agabiformius lentus

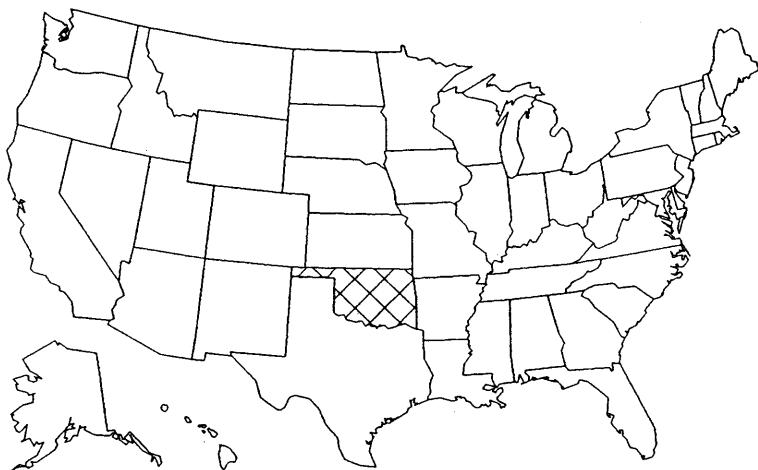

Agabiformius pusillus

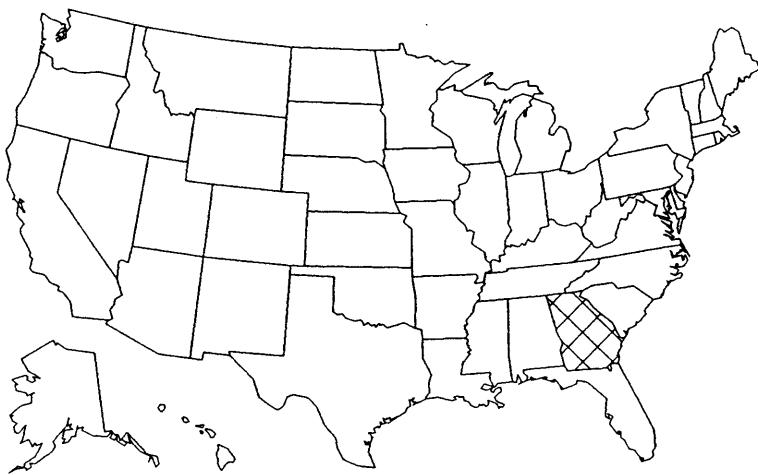

Alloniscus mirabilis

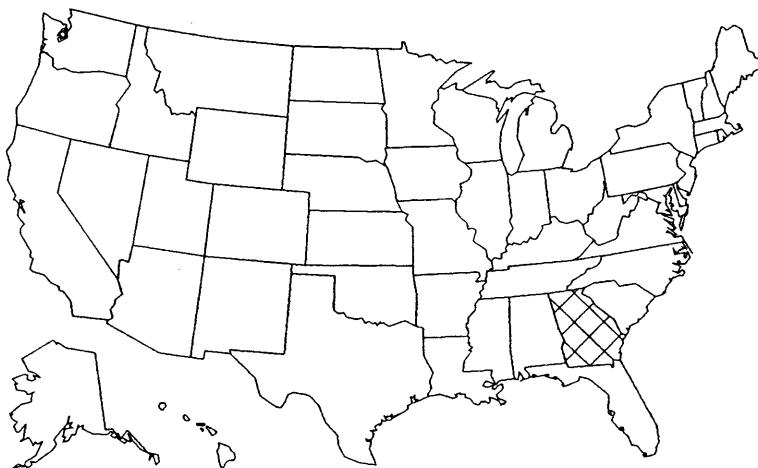

Amerigoniscus centralis

Amerigoniscus curvatus

Amerigoniscus georgiensis

Amerigoniscus gipsocolus

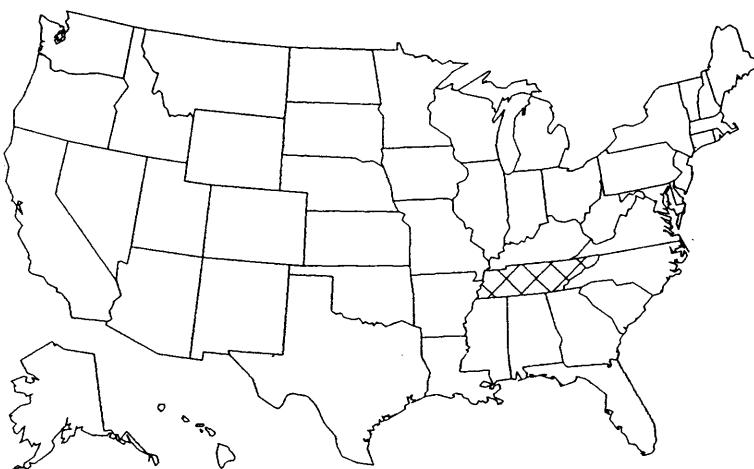

Amerigoniscus henroti

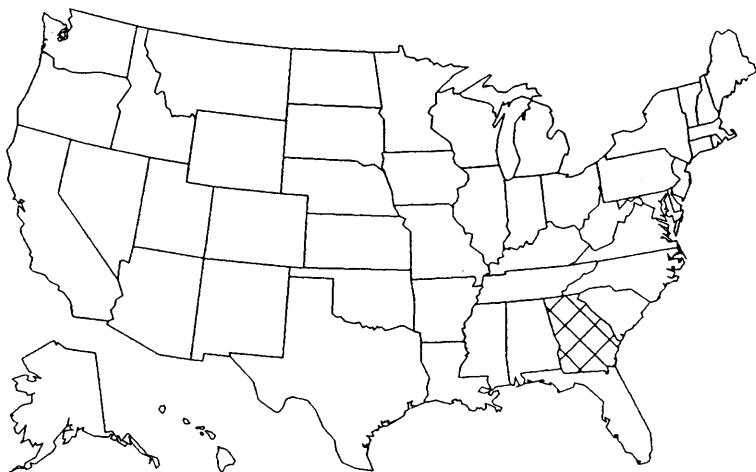

Amerigoniscus malheurensis

Amerigoniscus nicholasi

Amerigoniscus proximus

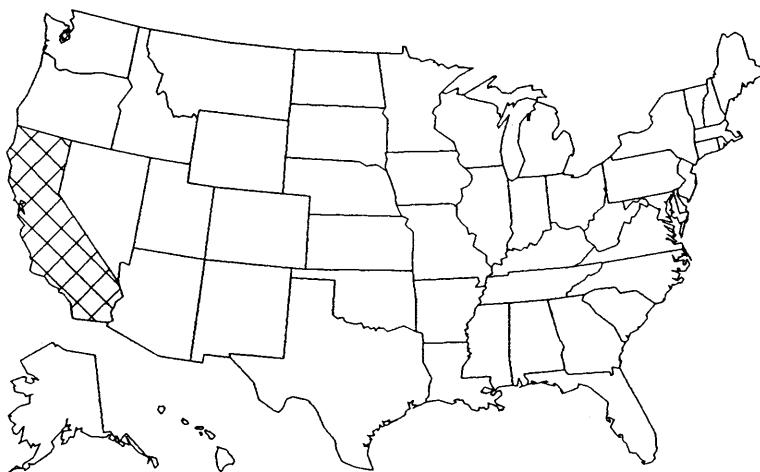

Amerigoniscus rothi

Armadillo affinis

Armadillo speciosus

Armadilloniscus coronacapitalis

Armadilloniscus ellipticus

Armadilloniscus holmesi

Armadilloniscus lindahli

Atlantoscia floridana

Balloniscus brevicornis

Balloniscus nigricans

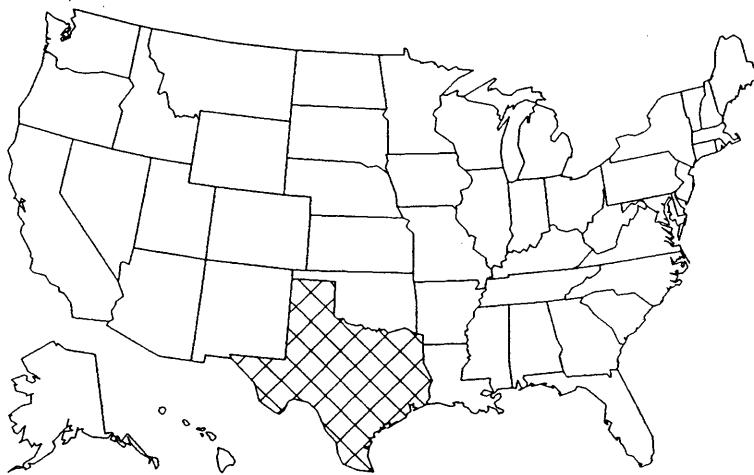

Brackenridgia cavernarum

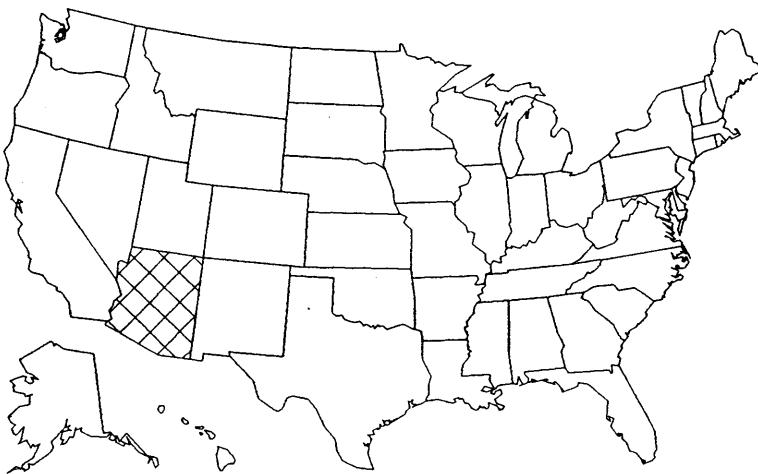

Brackenridgia heroldi

Brackenridgia reddelli

Brackenridgia sphinxensis

Cordioniscus stebbingi

Cubaris murina

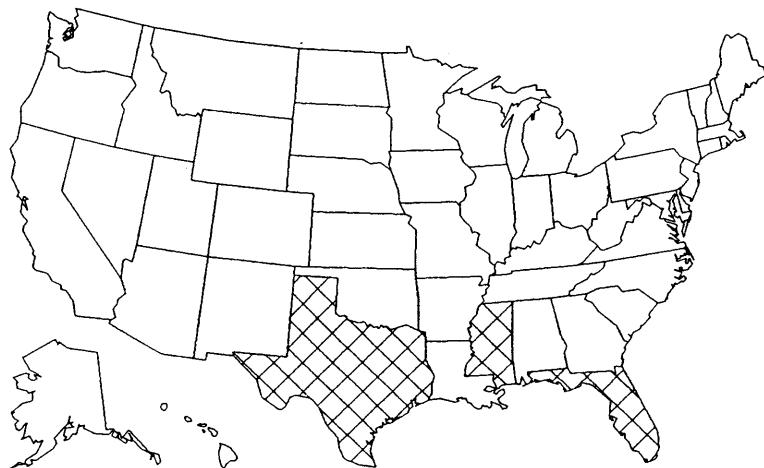

Floridoscia fusca

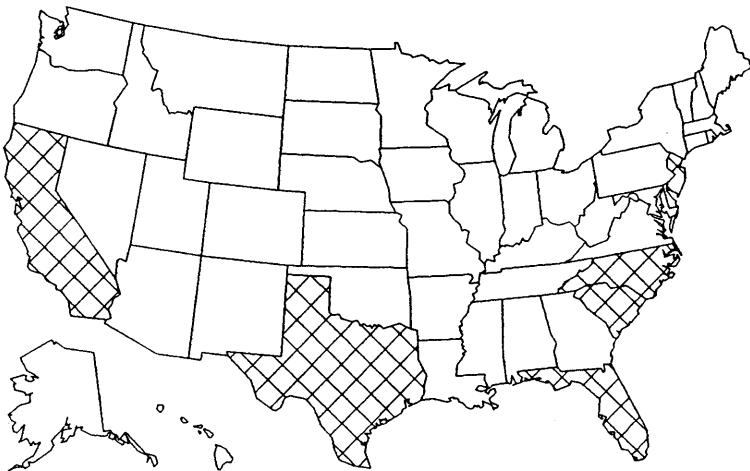

Halophiloscia couchii

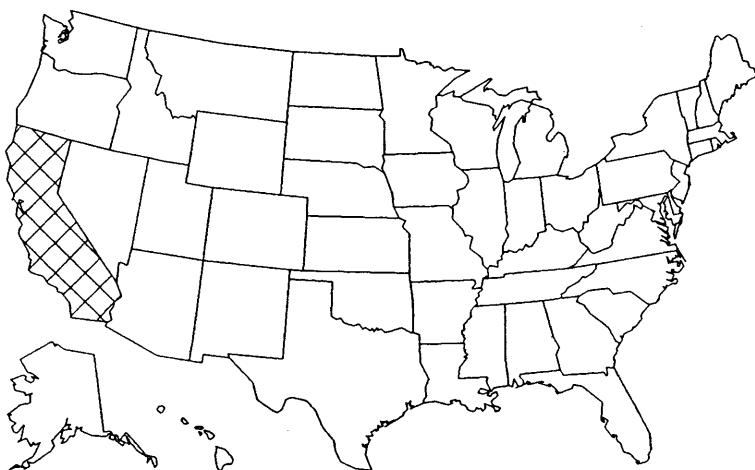

Ligia baudiniana

Ligia exotica

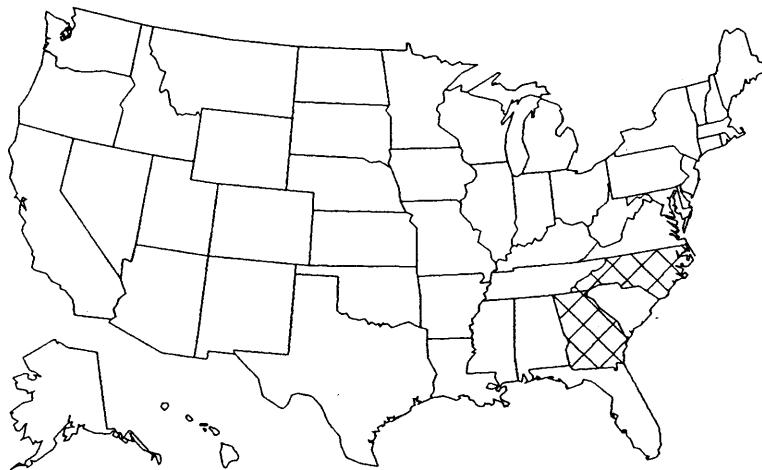

Ligia occidentalis

Ligia oceanica

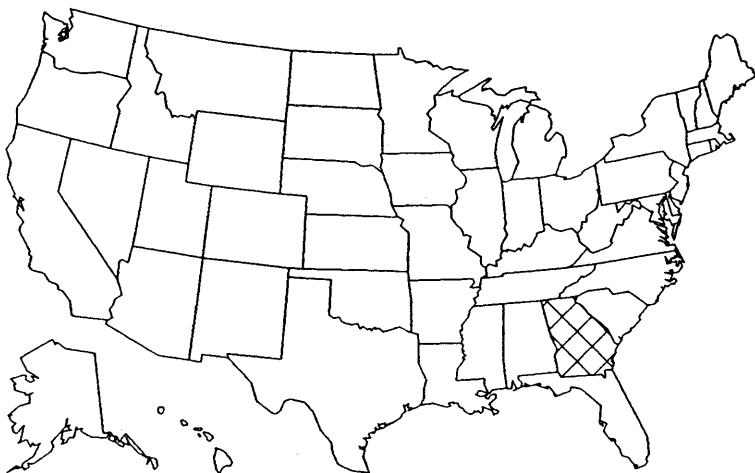

Ligidium blueridgensis

Ligidium elrodii

chatoogaensis

Ligidium elrodii

hancockensis

Ligidium elrodii

leensis

Ligidium elrodii

scottensis

Ligidium floridanum

Ligidium kofoidi

Ligidium lapetum

Ligidium latum

Ligidium mucronatum

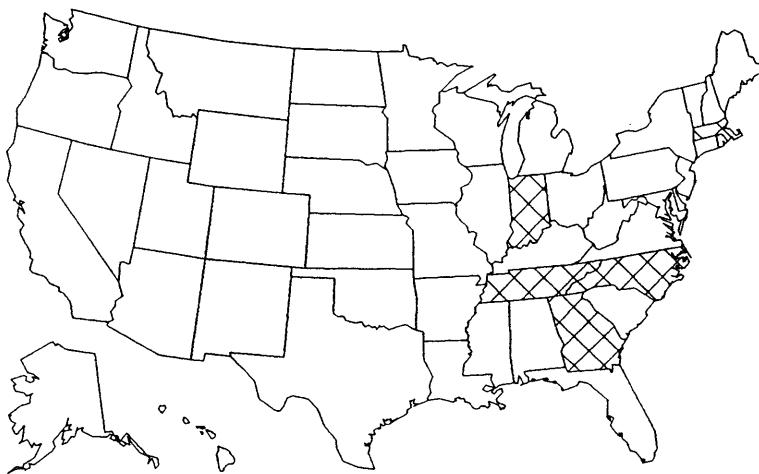

Littorophiloscia culebrae

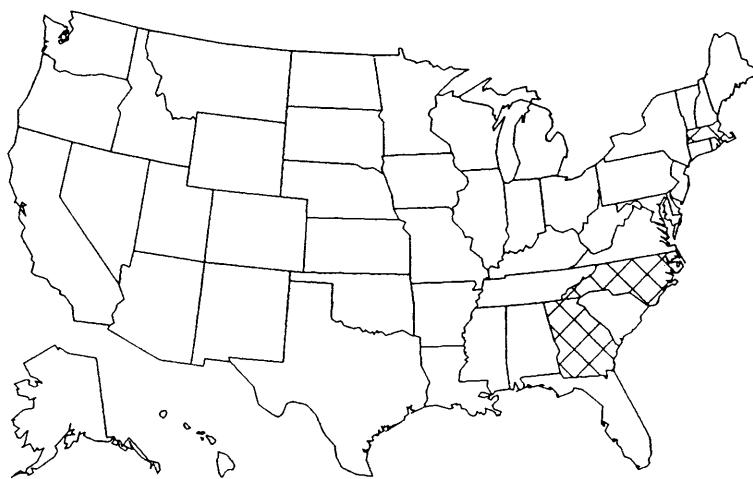

Littorophiloscia tropicalis

Miktoniscus barri

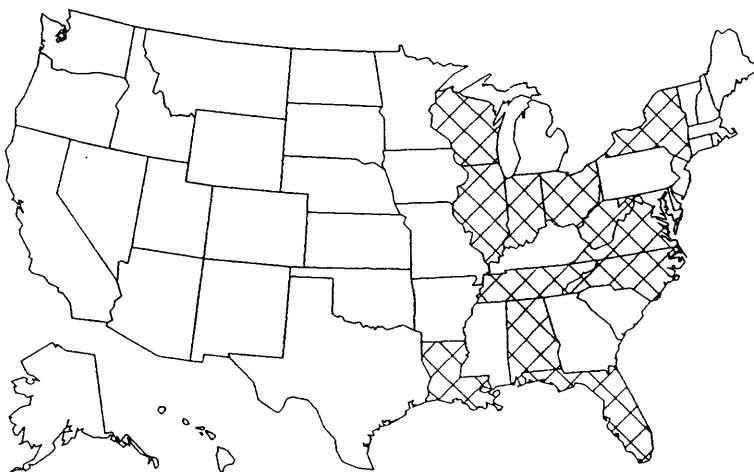

Miktoniscus halophilus

Miktoniscus mammothensis

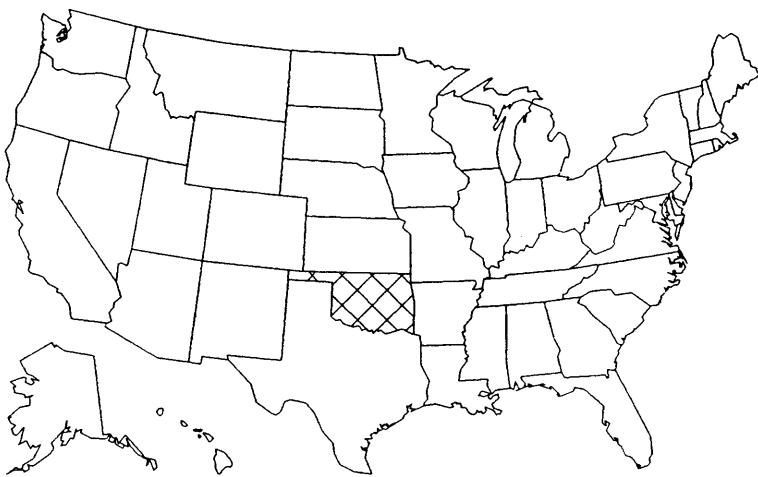

Miktoniscus medcofi

Miktoniscus morganensis

Miktoniscus oklahomensis

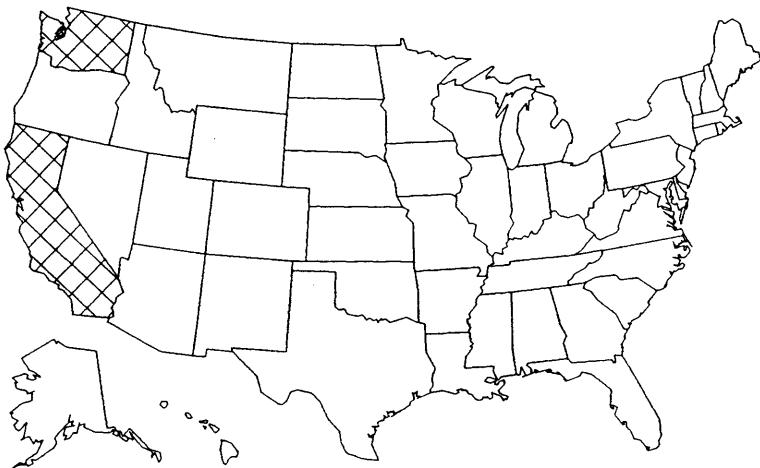

Miktoniscus r. racovitzai

Nagurus cristatus

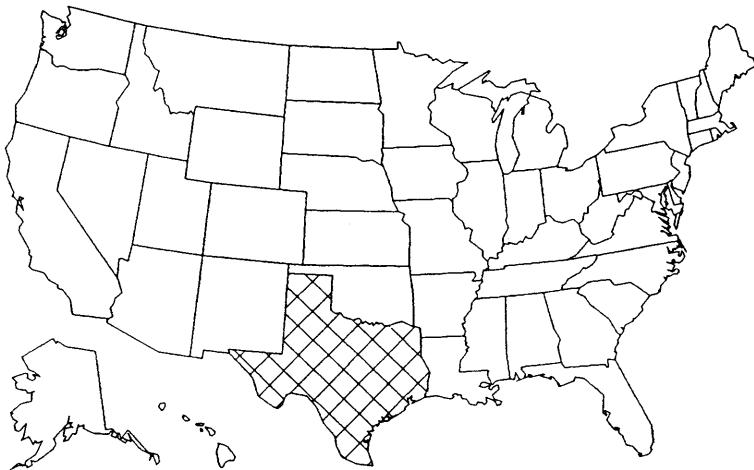

Niambia capensis

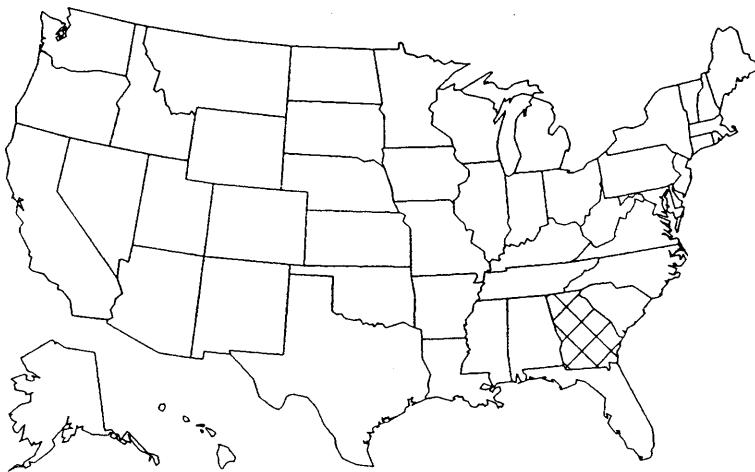

Oregoniscus nearcticus

Philoscia geiseri

Philoscia spinosa

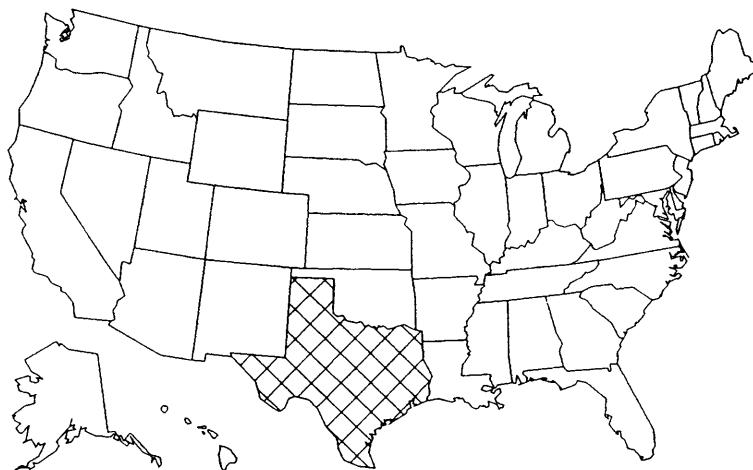

Platyarthrus aiasensis

Platyarthrus hoffmannseggii

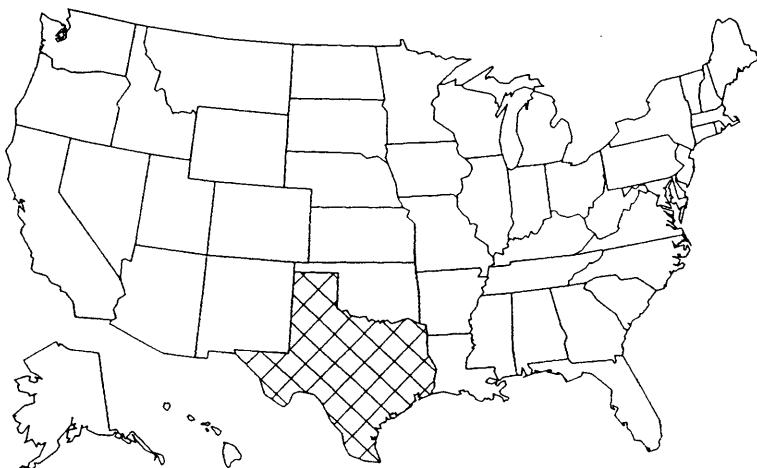

Porcellio alpinus

Porcellio conchus

Porcellio grandeus

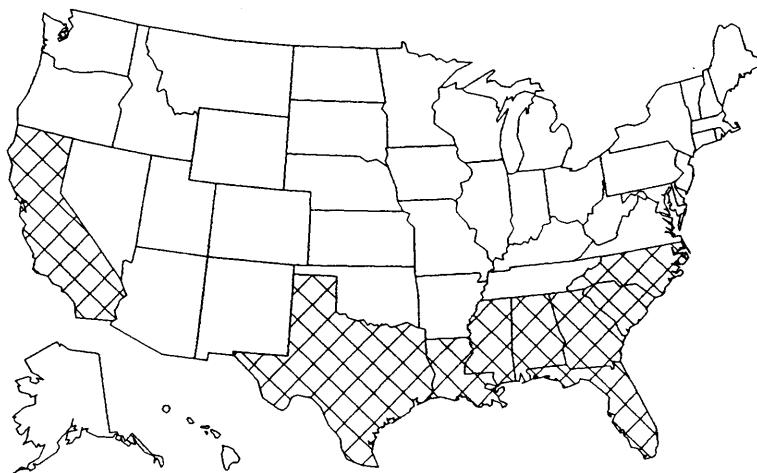

Porcellio ragusae

Porcellionides floria

Porcellionides virgatus

Proporcellio quadriseriatus

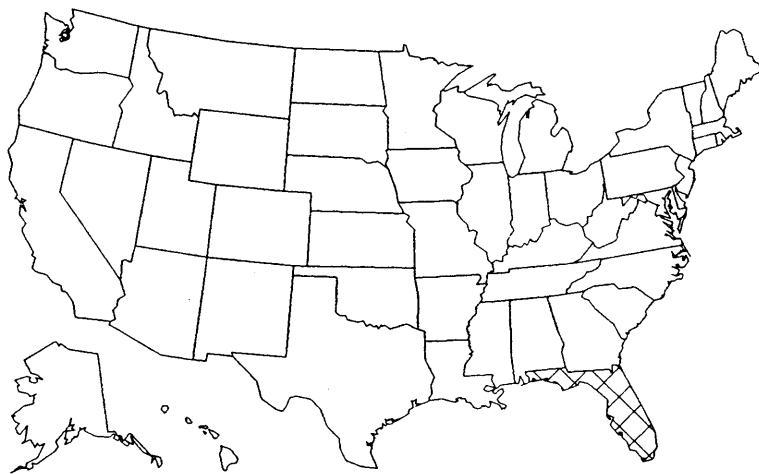

Rhyscotus texensis

Scyphacella arenicola

Stenoniscus pleonalis

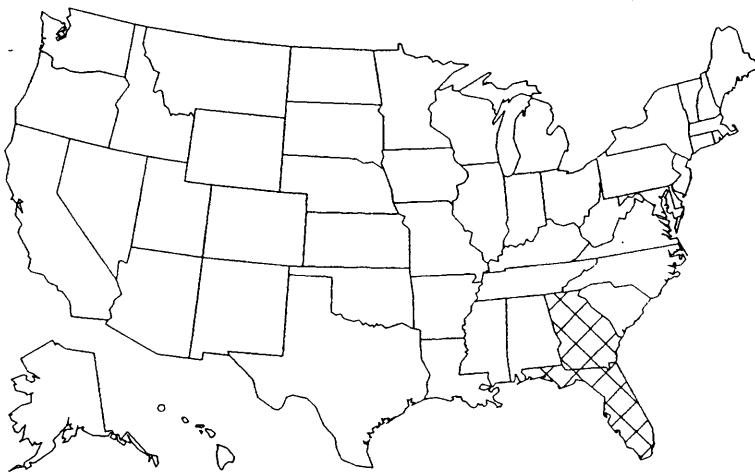

Trichoniscus orchidicola

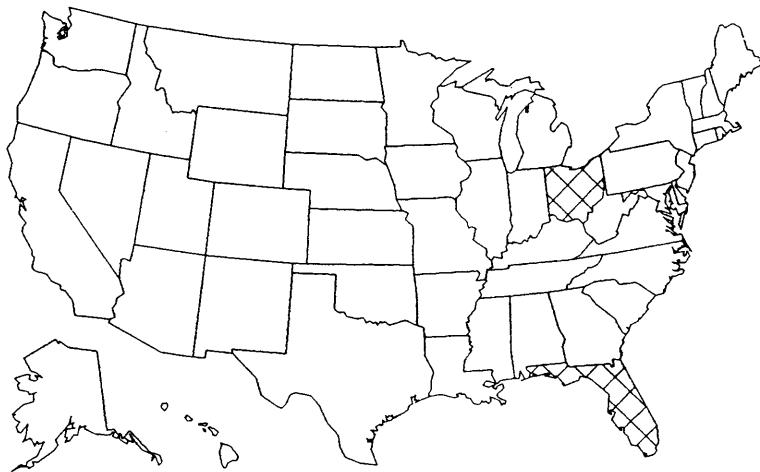

Trichorhina donaldsoni

Trichorhina heterophthalma

Trichorhina tomentosa

Trichorhina triocis

Tylos latreillei

Tylos marcuzzii

Tylos niveus

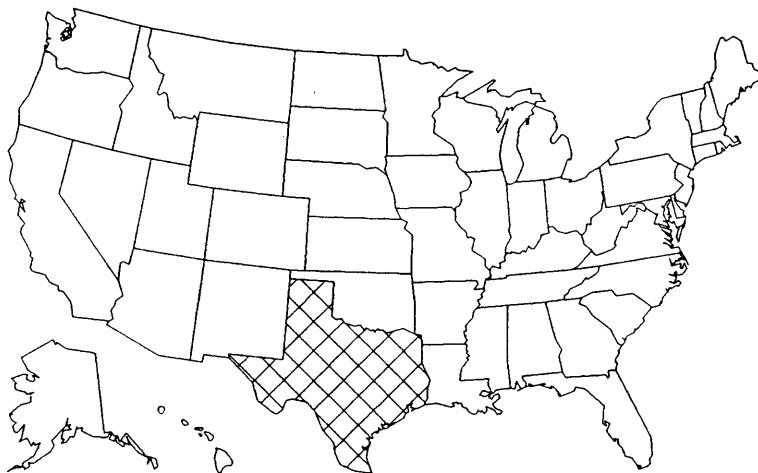

Tylos punctatus

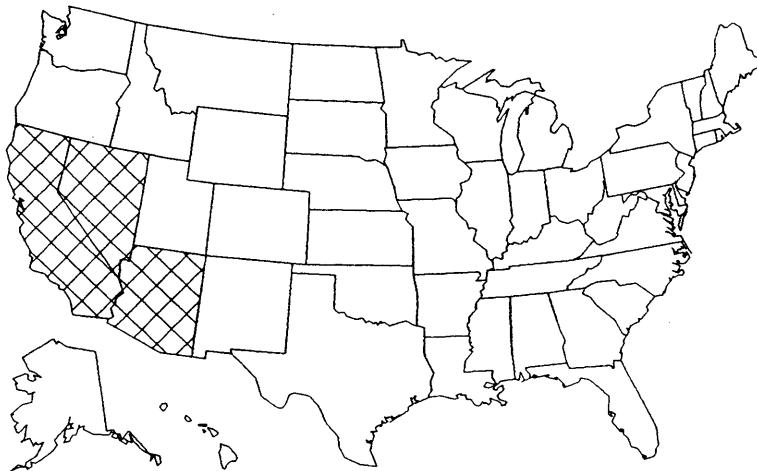

Tylos wegeneri

Venezillo apacheus

Venezillo arizonicus

Venezillo californicus
